- Nothing significant to report.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

4.0 Earthquake, near Lake Elsinore, Riverside County

On 01/25/18 at 0209 hours, a magnitude 4.0 earthquake occurred near Lake Elsinore, Riverside County. The National Tsunami Warning Center issued a Tsunami Information Statement with no tsunami danger for CA.

- There were no reports of damage or injuries.
- Per the Department of Water Resources (DWR), no inspections are required for this area.
- California State Warning Center (CSWC) performed notifications per SOP.

2018 January Winter Storm – Mud and Debris Flow

Mud and Debris Flow, Santa Barbara and Ventura Counties

CAL FIRE IMT-3, Santa Barbara County and Montecito F.D. in Unified Command

Area impacted: 19,200 acres, currently 75% contained

Activations

Santa Barbara County Emergency Operations Center (EOC) is activated at Level 3 (Highest)

Deployments

Santa Barbara County:

- 1 Cal OES Inland Region Deputy Regional Administrator (RA)
- 1 Cal OES Southern Region Deputy RA
- 1 Cal OES Southern Region Emergency Services Coordinator (ESC)
- 1 Cal OES Debris Representative
- 1 Cal OES Assistant Law Chief
- 1 Cal OES Recovery Specialist
- 2 Cal OES Southern Region Senior ESCs
- Cal OES Recovery Support Team

SITUATION SUMMARY

2018 January Winter Storm – Mud and Debris Flow (Continued)

Deployments (Continued)

Ventura County:

- 1 Southern Region Deputy RA
- 1 Cal OES Recovery Specialist Debris

Evacuations

- Mandatory:
 - North of SR-192 to the US Forest Service Boundary
 - East of Cold Springs Rd. to Toro Canyon Rd. on the West
 - South of SR-192 to the ocean: East of Sycamore Canyon Rd. / Hot Springs Rd. / Oak Rd.
- Voluntary:
 - All areas South of SR-192 to the ocean
 - East of Summit Rd. / Hot Springs Rd. / West of Sycamore Canyon Rd. / Hot Springs

Road Closures

- SR 192 remains closed within the mandatory evacuation zone
- Hwy 101 has reopened in both directions, however, the following off-ramp is still closed:
 - Northbound Hwy 101 off-ramp: Hermosillo

Critical Infrastructure

Per CUEA as of 01/24/18 at 1352 hours:

- Southern California Gas (SoCal Gas) advises that 2,900 customers are affected by this gas outage, they have restored 700 customers in the Montecito area.
- Southern California Edison (SCE) advises that power has been restored to all homes not damaged in the Montecito area.
- Water Outage
 - At this time, full system restoration is estimated by 01/31/18.
 - Water distribution sites, supported by the American Red Cross (ARC):
 - Montecito Fire Station #2, 2300 Sycamore Canyon Road, Montecito
 - Summerland Post Office, 2245 Lillie Avenue, Summerland
 - Montecito County Mart, 1030-1040 Coast Village Road, Montecito

SITUATION SUMMARY

2018 January Winter Storm – Mud and Debris Flow (Continued)

Health and Medical

- Santa Barbara County Environmental Health has set up a hotline for residents to call to report hazardous debris (805-681-5538).
- Santa Barbara County Public Health is providing free tetanus shots for first responders and the public.
- Per Santa Barbara County Public Health on 01/22/18, due to high bacteria levels, the beach waters listed below will be closed until further notice:
 - Arroyo, Burro, Carpinteria, El Capitan State Beach, Hope Ranch, Goleta Beach, Summerland Beach, Hammond Beach and Leadbetter Beach

Missions

- 2018-SOC-44911: Debris staging and sorting area (On Scene)
- 2018-SOC-44884: Parking space for 1 FEMA trailer (53' trailer) at CNG Armory (On Scene)
- 2018-SOC-44859: 4 DWR Hydrologists to assist Santa Barbara County accomplish strategic plan (On Scene)
- 2018-SOC-44836: Support OA with technical support and to use WERT findings in mitigation planning and ID of potential long term engineering solutions (On Scene)
- 2018-SOC-44833: LIDAR Tech Specs (On Scene)
- 2018-SOC-44797: LIDAR mapping assistance (On Scene)
- 2018-SOC-44765: CNG Azusa Armory for temporary secure storage of trailers and vans (On Scene)
- 2018-SOC-44682: Debris Management Site (On Scene)
- 2018-SOC-44651: Caltrans to provide traffic, cones and A-Frame barricades (On Scene)
- 2018-SOC-44638: DWR Liaisons to support Debris/Flood Fighting Task Force (On Scene)
- 2018-SOC-44628: Drainage and Creek Clearance (On Scene)
- 2018-SOC-44620: Resources to support debris management (On Scene)
- 2018-SOC-44554: 2 CCC Crews to staff 3 POD locations ([Mission Closed](#))
- 2018-FIRE-44642: CAL FIRE (MTO) assigned to the Santa Barbara flooding emergency incident in support of life safety and rescue efforts (On Scene)
- 2018-FIRE-44635: CAL FIRE (CDF) assigned to the Santa Barbara flooding emergency incident in support of life safety and rescue efforts (On Scene)
- 2018-Southern-44652: CNG Liaisons to support Santa Barbara County EOC ([Mission Closed](#))
- 2018-Southern-44520: DWR Liaison to report to Santa Barbara EOC (On Scene)

SITUATION SUMMARY

2018 January Winter Storm – Mud and Debris Flow (Continued)

WEATHER OF CONCERN

Weather of Concern

- There is a threat of hail this morning due to widespread showers over Northwest California. Small hail can quickly accumulate on the road, resulting in very slick conditions.

Active Weather Warnings, Watches and Advisories by County:

- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Snow accumulation levels will also lower and generally range between 1500 to 2500 feet by today. Wetting moisture will overspread the entire region with this event. The North Coast, Mid Coast to Mendocino, Northwest Mountain and Northern Sierra PSAs will be favored with an additional 1.5 to 3.0 inches of liquid water. Gusty southerly winds that impacted the north overnight will transition to central and eastern portions of the region today before relaxing. Look for gusts as high as 50 mph across the higher exposed terrain. Residual light showers main continue into Friday morning before dissipating. Afternoon temperatures will be a few to several degrees below normal today and Friday.

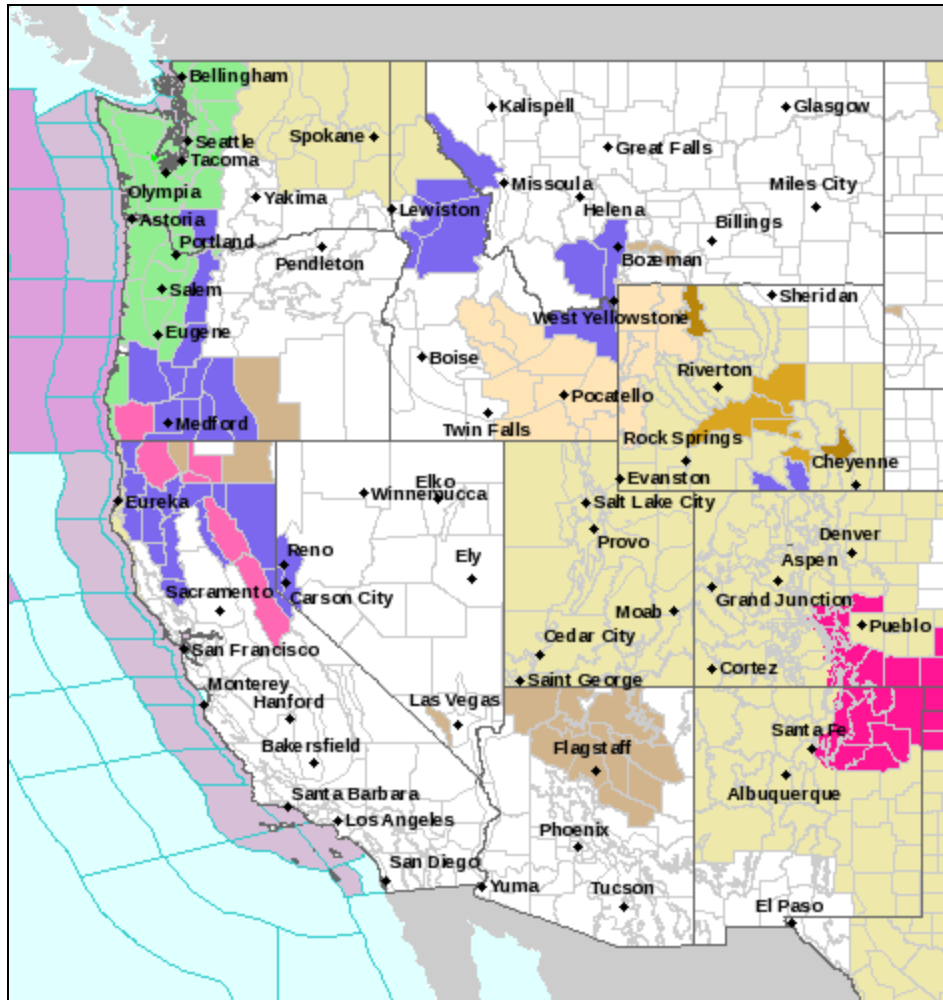

Another Pacific trough will approach the region Saturday and Saturday night and spread precipitation across the northern tier of the region. The North Coast would be favored and more rain than snow is expected since the system will be warmer. Sunday looks to be drier and warmer as a shortwave ridge tries to build.

The weak ridge will break down early next week and allow for lighter showers to spread across the far north. Confidence is rising that the overall weather pattern would turn warmer and drier next week compared to the moist and cool regime the region has been experiencing. It is very plausible this type of pattern could extend into the follow week with a few inside slider troughs impacting the far north and east and ridging off the coast.

SOUTHERN CALIFORNIA

A Pacific trough dropping down the West Coast will bring 10 to 15 degrees of cooling to much of the region today. This trough will also bring scattered showers to Central California this afternoon with most locations expected to receive less than a quarter inch of rainfall. However, the Central Sierra and its surrounding foothills will receive up to an inch of rainfall. The snow level will be around 5,000 feet. Westerly winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas through this evening. Behind the trough, there will be north winds of 15 to 25 mph with gusts to 40 mph across Santa Barbara County and the Grapevine this evening through Friday morning. Temperatures will warm a few degrees Friday. Strong high pressure will build into California from the southwest bringing a big warming and drying trend to the region Saturday through Monday. Maximum temperatures will be in the low to mid 80s across the valleys of Southern California Sunday and Monday. Minimum humidity will be mainly in the teens away from the San Joaquin Valley Sunday and Monday. Northeast winds of 15 to 25 mph with gusts to 40 mph will surface across the mountains and below the canyons and passes of Southern California Saturday morning through Monday morning. The ridge of high pressure will weaken bringing a cooling trend and a little increase in humidity Tuesday and Wednesday of next week.
